

Noon Ball

Meet the Noon Ballers

A small collective of men back in 1996 started to play basketball together at lunch. With limited options to play basketball in town and nothing else available year round, the group of “noon ballers” started to grow at the Y! From 12p.m. – 2p.m. every weekday these “noon ballers” have been getting together to play basketball and exercise.

As the group has grown over the past 20+ years so have the number of participants. With over 70 members on their email list this loyal group of guys are committed to keeping this weekday tradition alive, while adding new members each year. Without the Y, this group of guys would not have had this amazing opportunity to build relationships, play year round or spread this tradition to a new generation of “noon ballers”.
