YMCA PLAIN CITY BEFORE/AFTER CARE ANNOUNCEMENT

The Union County Family YMCA has recently received notification from Jonathan Alder School District of their intent to transition to a new provider for before/after school care at Plain City Elementary. We apologize for any confusion this caused our current and previously served families, as the YMCA strives to provide clear and updated information at all times. This announcement was unexpected and we had hoped to renew our contract with the school in the 2023-24 school year. Nonetheless, we have no doubt that your children will continue to receive quality care with any service the district chooses.

We thank you for your involvement in YMCA childcare over the years, and hope to see your children participate in the many youth programs and youth sports that are offered throughout the year at the Union County Family YMCA.

Should you have any further questions regarding before/after care next school year, please contact Plain City Elementary/Jonathan Alder administration.

Should you have any further questions regarding YMCA programming and the many opportunities for your children at the YMCA, please contact Rachael Baxter, Youth Development Director, rbaxter@unioncountyyymca.org
